## Puzzle 4: Time-Travel Tour

A band of musicians from far away has visited the Mines campus for a tour. They came with their special *time machine* that lets them teleport around both space and time by entering destinations using a standard telephone keypad, like the one shown on the right<sup>1</sup>.

Their tour guide mysteriously went missing after the tour, and the admissions office wants to find out who the band was to get their tour guide back. They have recovered the time machine and its most recent travels. Name the band.

Guggenheim Hall

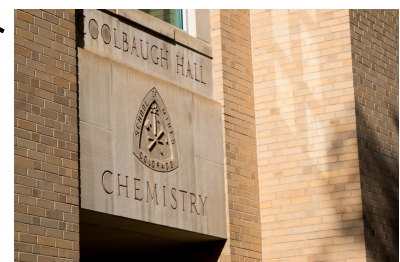

Engineering Hall

Hill Hall

Welcome Center

Coolbaugh Hall

<sup>1</sup>The encoding used to enter these destinations on the keypad is mysterious. The admissions office has tried everything from GPS coordinates to UNIX timestamps and has not had any luck.
